CSCU — Certified Secure Computer User

Phishing awareness, password hygiene, Wi-Fi security and mobile device protection — basic cyber hygiene for any computer user, no IT background required. 1-on-1 online training with a real lecturer.

- Flexible hours
- Commence anytime
- 1-on-1 online with a real lecturer

🎓 What You'll Learn

Covered over 10h (~2 weeks).

1. Fundamentals of securing data, networks and computers
2. Securing operating systems and understanding malware/antivirus protection
3. Internet security, safe browsing and social networking safety
4. Securing email communications and mobile devices
5. Data backup, disaster recovery and online privacy basics

💰 Pricing

COURSE PRICE

R13,900

CompTIA CySA+ (Cybersecurity Analyst)

Security operations, threat monitoring, vulnerability management, threat intelligence and incident response. 1-on-1 online training with a real lecturer, from anywhere in South Africa.

- Flexible hours
- Commence anytime
- 1-on-1 online with a real lecturer

📌 This course is part of the **Cybersecurity Analyst** Career Path — a structured, bundled route to job-ready.

View Career Path →

🎓 What You'll Learn

Covered over 20 hours.

1. **Security operations & threat monitoring**
2. **Vulnerability management & assessment**
3. **Threat intelligence & detection**
4. **Incident response & handling**
5. **Reporting & communication**

Required prerequisite courses: CySA+ builds on 4 foundational CompTIA courses, billed separately. Note: A+ certification requires passing 2 exams (Core 1 & Core 2), so the full pathway totals 6 exams, not 5.

- CompTIA Tech+ — 20h — R12,900
- CompTIA A+ — 20h — R12,900
- CompTIA N+ — 20h — R12,900
- CompTIA Security+ — 20h — R12,900
- CompTIA CySA+ — 20h — R18,900

💰 Pricing

CYSA+ ONLY

R18,900

CySA+ course alone (prerequisites assumed)

ALL 5 COURSES

R70,500

Tech+ through CySA+, full chain, no exams

FULL CAREER PATHWAY

R138,500

All 5 courses + all 6 exams (A+ requires 2) — R4,000 discount included

📚 Course Duration & Format

🕐 Duration

20 hours (~1 month) for CySA+ — maximum completion time

💳 Payment

Full payment only (no payment plan)

💻 Mode

1-on-1 online (MS Teams / Google Meet) with a real lecturer

📅 Start Dates

Flexible — start anytime

Typical Cybersecurity Analyst salary (South Africa)

R450k – R750k / yr 📈

Buying just the CySA+ exam? R12,000 covers School of IT booking your official CompTIA CySA+ exam slot, handling admin, and providing past exam papers — full-service, not the CompTIA retail price. The R138,500 full pathway price already includes all 6 exams (Tech+, A+ ×2, N+, Security+, CySA+) at a bundled rate.

Full Career Pathway = best value. The R138,500 price includes all 5 courses (Tech+ → A+ → N+ → Security+ → CySA+, ~100 hours over ~5 months) plus all 6 international exams, with a R4,000 discount already applied versus paying per course and exam individually.

🚀 Get internationally recognised skills — start your Cybersecurity Analyst journey today.

MICROSOFT · INTERMEDIATE

Cloud and AI Security Engineer Associate (SC-500)

Manage identity and access, secure networking, compute, storage, databases and AI workloads, and manage security operations across Azure and hybrid environments. 1-on-1 online training with a real lecturer.

- Flexible hours
- Commence anytime
- 1-on-1 online with a real lecturer

📌 This course is part of the **Cloud Security Engineer** Career Path — a structured, bundled route to job-ready.

View Career Path →

Prerequisite: Azure Administrator Associate (AZ-104) course.

🎓 What You'll Learn

Covered over 20h (~1 month).

1. **Managing identity and access**
2. **Securing networking**
3. **Securing compute, storage and databases**
4. **Securing AI workloads and services**
5. **Managing security operations with Microsoft Defender and Sentinel**

💰 Pricing

COURSE PRICE

R16,900

Full-service, 1-on-1 online training

📚 Course Duration & Format

🕐 **Duration**

20h (~1 month)

💳 **Payment**

Full payment before commencement (no payment plan)

💻 **Mode**

1-on-1 online, real lecturer, choose your own dates

📜 **Certificate**

Certificate of Completion included

Typical Cloud and AI Security Engineer salary (South Africa)

R450k – R780k/yr

📈

International exam: optional, R8,000 — Microsoft exam (SC-500). Contact us to confirm current fee.

Note: This certification replaces the retiring AZ-500 exam (Azure Security Engineer Associate, retires 31 August 2026), with expanded coverage of AI workload security.

🚀 Get job-ready skills — start your Cloud and AI Security Engineer Associate course today.

COMPTIA · INTERMEDIATE

CompTIA SecAI+

CompTIA's newest certification, launched February 2026 — securing AI systems, understanding AI-specific threats and risks, and governing AI deployments responsibly. A timely credential as organisations rapidly adopt AI and need staff who can secure it. 1-on-1 online training with a real lecturer.

- Flexible hours
- Commence anytime
- 1-on-1 online with a real lecturer

📌 This course is part of the **Cloud Security Engineer** Career Path — a structured, bundled route to job-ready.

View Career Path →

Note: Recommended: CompTIA Security+ or equivalent foundational security knowledge.

🎓 What You'll Learn

Covered over 20h (~1 month).

1. **AI system architecture and attack surface fundamentals**
2. **AI-specific threats — data poisoning, model theft, adversarial inputs, prompt injection**
3. **Securing AI development and deployment pipelines**
4. **AI governance, risk management and compliance frameworks**
5. **Monitoring and incident response for AI systems**

💰 Pricing

COURSE PRICE

R16,900

Full-service, 1-on-1 online training

📚 Course Duration & Format
