

SCHOOL OF IT INTERNATIONAL

AutoCAD Courses Brochure

Live, 1-on-1 online training in AutoCAD — the industry-standard CAD programme used by engineers, architects, interior designers and drafters worldwide. From Level 1 through to our CAD Specialist and Technical Master programmes.

Level 1 – 6

CAD Specialist

Technical Master

School of IT International (Pty) Ltd

Somerset West, Cape Town, South Africa · schoolofit.co.za

Intro to AutoCAD (Level 1 – Drafting Foundations)

AutoCAD is a popular Computer Aided Design (CAD) programme used extensively in industry to complete drawing projects in any discipline – used by engineers, interior designers, architects and many more. 1-on-1 online training with a real lecturer.

● Flexible hours

● Commence anytime

● 1-on-1 online with a real lecturer

Learning Objectives

Covered over 10 hours (5–10 days).

- 1 2D CAD drawing fundamentals
- 2 Drafting equipment and exploring the AutoCAD software
- 3 Drawing lines and shapes
- 4 CAD drawing and design line weight
- 5 Multiview drawings
- 6 Adding details — sections, symbols, and more

Pricing

COURSE PRICE

R8,900

Full payment before commencement (no payment plan)

Course Duration & Format

Duration

10 hours (5–10 days) — maximum completion time

Payment

Full payment only (no payment plan)

Mode

1-on-1 online, real lecturer, flexible scheduling

Certificate

Certificate of Completion included

Career Prospects

- ◆ CAD Draftsperson
- ◆ Design Engineer (entry)
- ◆ Architectural Drafter
- ◆ Interior Design Assistant
- ◆ Mechanical Draftsperson

Typical AutoCAD-skilled salary (South Africa)

R150k – R350k / yr

 Get job-ready skills — start your Intro to AutoCAD (Level 1) course today.

AutoCAD Level 2

Construction Management: Reading Drawings & Specifications. AutoCAD is a popular CAD programme used extensively in industry across every design discipline. 1-on-1 online training with a real lecturer.

● Flexible hours

● Commence anytime

● 1-on-1 online with a real lecturer

Recommended: Intro to AutoCAD (Level 1) or equivalent experience.

Learning Objectives

Covered over 20 hours (5-10 days).

- 1 Deciphering the language of construction drawings
- 2 Understanding line types
- 3 Reviewing plan views, elevation views, section views, and isometric views
- 4 Reviewing architectural, structural, and mechanical drawings
- 5 Reviewing reference points on drawings
- 6 Building Information Modeling (BIM)

AutoCAD Level 3

2D CAD Drawing. AutoCAD is a popular CAD programme used extensively in industry across every design discipline. 1-on-1 online training with a real lecturer.

● Flexible hours

● Commence anytime

● 1-on-1 online with a real lecturer

Recommended: AutoCAD Level 2 or equivalent experience.

Learning Objectives

Covered over 20 hours (5-10 days).

1 Working with the AutoCAD interface**2** Drawing simple geometry**3** Adding annotations**4** Creating title blocks**5** Adding layouts and viewports**6** Printing and plotting

AutoCAD Level 4 (2D to 3D)

Create solid forms and display the solid toolbar — taking your 2D drawings into the third dimension. AutoCAD is used extensively across every design discipline. 1-on-1 online training with a real lecturer.

● Flexible hours

● Commence anytime

● 1-on-1 online with a real lecturer

Recommended: AutoCAD Level 3 or equivalent experience.

Learning Objectives

Covered over 20 hours (5–10 days).

1 Create primitives, turning a 2D polyline into a 3D solid

2 Create complex solids, tapering an extrusion

3 Edit solids and enhance the 2D drawing process

4 Adding reflections and detail with ray tracing

5 Printing/plotting your 3D drawing

AutoCAD Level 5 (3D Architectural Rendering)

AutoCAD is a popular CAD programme used extensively in industry to complete drawing projects in any discipline — used by engineers, interior designers, architects and many more. 1-on-1 online training with a real lecturer.

● Flexible hours

● Commence anytime

● 1-on-1 online with a real lecturer

Recommended: AutoCAD Level 4 or equivalent experience.

Learning Objectives

Covered over 20 hours (5–10 days).

- 1 **Setting up units and options; working with templates**
- 2 **Using drawing tools; modifying objects**
- 3 **Using the hatch and gradient editors**
- 4 **Aligning and framing text; dimensioning techniques**
- 5 **Using the continue and baseline commands; reusing content**
- 6 **Editing attributes, designing tables, and using external references (XREFs)**

AutoCAD Level 6

AutoCAD is a popular CAD programme used extensively in industry to complete drawing projects in any discipline — used by engineers, interior designers, architects and many more. 1-on-1 online training with a real lecturer.

● Flexible hours

● Commence anytime

● 1-on-1 online with a real lecturer

Recommended: AutoCAD Level 5 or equivalent experience.

Learning Objectives

Covered over 20 hours (5-10 days).

- 1 **Drawing advanced objects; working with regions and multilines**
- 2 **Selecting objects; copying properties from one object to another**
- 3 **Working with layer states and layer filters; applying advanced object snaps**
- 4 **Moving, rotating, trimming, extending and scaling objects; customizing viewports**
- 5 **Publishing and annotating drawings; creating layouts**
- 6 **Creating reusable content with blocks; working with XREFs**

CAD Specialist (Levels 2–4)

A comprehensive intermediate-to-advanced programme covering AutoCAD Levels 2 through 4 with tests and projects at each level. 1-on-1 online training with a real lecturer.

● Flexible hours

● Commence anytime

● 1-on-1 online with a real lecturer

🎓 Learning Objectives

Covered over 40 hours (~2 months).

- 1 Level 2 – Intro, with test and project
- 2 Level 3 – Advanced, with test and project
- 3 Level 4 – Advanced, with test and project
- 4 Progressive skill-building across construction drawing interpretation, 2D drafting, and 2D-to-3D modelling
- 5 Consolidated assessment and portfolio-style project work at each level

Technical Master (Levels 1–6)

Our most comprehensive AutoCAD programme — the full journey from Level 1 drafting foundations through to Level 6 expert-level 2D/3D CAD, with tests and advanced projects throughout. 1-on-1 online training with a real lecturer.

● Flexible hours

● Commence anytime

● 1-on-1 online with a real lecturer

Learning Objectives

Covered over 80 hours (~4 months).

- 1 Levels 1–2 — Intro, with test and project
- 2 Levels 3–4 — Advanced, with test and advanced project
- 3 Levels 5–6 — Expert, with test and advanced project
- 4 Complete coverage from 2D drafting foundations through 3D modelling, rendering, and expert-level CAD workflows
- 5 Consolidated assessment and advanced portfolio-style project work at each stage
