

SCHOOL OF IT INTERNATIONAL

Cisco Certifications Complete Catalogue

Live, 1-on-1 online training across Cisco's full certification portfolio — reorganized in February 2026 into Entry, Associate, Professional, Expert and Architect levels, spanning Networking, Cybersecurity, Automation, and specialised infrastructure domains.

Entry — CCST

Associate — CCNA

Professional — CCNP

Expert — CCIE / CCDE

Architect — CCAr

School of IT International (Pty) Ltd

Somerset West, Cape Town, South Africa · schoolofit.co.za

2026 Cisco Certification Portfolio Restructure

As of 3 February 2026, Cisco reorganized its entire certification portfolio into five clear levels — Entry, Associate, Professional, Expert, and Architect/Design — under the unified CCNA / CCNP / CCIE naming structure. Two major legacy tracks were folded into this structure:

DevNet → Automation: The DevNet Associate, Professional and Expert tracks were rebranded as CCNA Automation, CCNP Automation, and CCIE Automation respectively — with substantially updated exam content emphasising AI-ready networking, infrastructure-as-code, and multi-vendor programmability. Existing DevNet holders were automatically migrated on 3 February 2026, with no retesting required.

CyberOps → Cybersecurity: Cisco CyberOps Associate and Professional were rebranded as CCNA Cybersecurity and CCNP Cybersecurity — aligning cybersecurity credentials with the trusted CCNA/CCNP brand. Exam codes (200-201 CBROPS, 350-201 CBRCOR) remain unchanged; only the certification name and content version updated. Existing CyberOps holders were automatically migrated with no retesting required.

This brochure reflects the current, post-restructure certification names and structure throughout.

CCST Networking — Cisco Certified Support Technician (Networking)

Entry-level networking fundamentals — network technology, network administration, security, and troubleshooting for technical support roles. 1-on-1 online training with a real lecturer.

● Flexible hours

● Commence anytime

● 1-on-1 online with a real lecturer

🎓 Learning Objectives

Covered over 20 hours (~1 month).

- 1 Standard networking concepts and terminology
- 2 Network components — routers, switches, access points, cabling
- 3 Addressing and subnet formats
- 4 Endpoint and network device configuration
- 5 Network diagrams and infrastructure documentation
- 6 Basic security concepts and troubleshooting methodology

CCAr — Cisco Certified Architect

The pinnacle of Cisco certification — validating the ability to develop network architectures that support enterprise-wide digital transformation, evaluated through a board review by a panel of senior Cisco architects. 1-on-1 online training with a real lecturer.

● Flexible hours

● Commence anytime

● 1-on-1 online with a real lecturer

Prerequisite: CCDE certification and 10+ years of network architecture experience recommended.

🎓 Learning Objectives

Covered over 80 hours (~4 months).

- 1 Enterprise-wide architecture strategy and vision
- 2 Aligning network architecture with business transformation goals
- 3 Cross-functional stakeholder engagement and executive presentation
- 4 Multi-domain, multi-technology architecture integration
- 5 Board review preparation and defence of architectural decisions

💰 Pricing

COURSE PRICE

R65,400

Payment plan: 4 payments of R16,350 per 20 hours

📚 Course Duration & Format

Duration

Cisco Specialist Certifications

Specialist certifications are individual exams that typically serve as concentration/elective components within Professional-level (CCNP) tracks, or as standalone credentials for a specific technology domain. School of IT can prepare you for any of the following as an add-on to your Professional-level course, or as a standalone exam-preparation module — contact us for pricing and scheduling.

Specialist Certification	Track
Enterprise Advanced Routing and Services (ENARSI)	Enterprise
Enterprise SD-WAN (ENSDWI)	Enterprise
Enterprise Wireless Implementation (ENWLSI)	Enterprise
Enterprise Wireless Design (ENWLSD)	Enterprise
Security Core (SCOR)	Security
Secure Firewall (SNCF)	Security
Identity Services Engine (SISE)	Security
Secure Email (SESA)	Security
Data Center Core (DCCOR)	Data Center
Data Center ACI (DCACI)	Data Center
Data Center Infrastructure (DCID)	Data Center
Collaboration Core (CLCOR)	Collaboration
Collaboration Applications (CLICA)	Collaboration
Collaboration Conferencing (CLCNF)	Collaboration
Service Provider Core (SPCOR)	Service Provider
Automation Core	Automation

Note: Some specialist exams from the legacy DevNet track (SAUTO, CLAUTO, SPAUTO, DEVOPS, CLICA — old codes) were retired on 2 February 2026. CCNP Automation now covers most of this retired content under the updated blueprint.
