Coding for Kids

Scratch is a high-level block-based visual programming language and website targeted primarily at children 8–16 as an educational tool for coding. Users on the site, called Scratchers, can create projects on the web using a block-like interface. 1-on-1 online training with a real lecturer.

● Flexible hours

● Commence anytime

● 1-on-1 online with a real lecturer

🎓 Learning Objectives

Covered over 10 hours.

- 1 Sequence — identifying a series of steps for a task
- 2 Loops — running the same sequence multiple times
- 3 Parallelism — making things happen at the same time
- 4 Events — one thing causing another thing to happen
- 5 Conditional statements — making decisions based on conditions
- 6 Operators — support for mathematical and logical expressions
- 7 All about data — storing, retrieving, and updating values

💰 Pricing

COURSE PRICE

R8,900

Full payment before commencement (no payment plan)

📚 Course Duration & Format

Duration

10 hours — maximum completion time

Payment

Full payment only (no payment plan)

Mode

1-on-1 online, real lecturer, flexible scheduling

Certificate

Certificate of Completion included

👜 Career Prospects

◆ Future Software Developer

◆ STEM Student

◆ Young Coder

◆ Robotics Enthusiast

◆ Digital Creator

Building foundational coding skills for the future

N/A — educational course for children

Note: Certificate of Completion included. Fun, engaging, age-appropriate 1-on-1 sessions designed to build confidence and a love of technology.

Get job-ready skills — start your Coding for Kids course today.

Robotics for Kids

The RoboMaster S1 is a game-changing educational robot built to unlock the potential in every learner. Inspired by DJI's annual RoboMaster robotics competition, the S1 provides an in-depth understanding of science, math, physics, programming and more through captivating gameplay modes and intelligent features. 1-on-1 online training with a real lecturer.
