

SCHOOL OF IT INTERNATIONAL

Microsoft Azure & Fabric Certifications Brochure

Live, 1-on-1 online training across the full Microsoft Azure and Microsoft Fabric certification portfolio — from cloud fundamentals through Administrator, Data, Security and Expert-level role-based certifications.

Azure Fundamentals

Azure Administrator

Fabric Data Engineer

Fabric Analytics Engineer

Azure Security

Power BI

Solutions Architect

DevOps Engineer

School of IT International (Pty) Ltd

Somerset West, Cape Town, South Africa · schoolofit.co.za

FUNDAMENTALS

Azure Fundamentals Course

The starting point for every Azure path — covering core cloud concepts, Azure architecture and services, and Azure management and governance.

● Flexible hours

● Commence anytime

● 1-on-1 online with a real lecturer

🔗 This course is part of the **Cloud Administrator** career path — a structured, bundled route to job-ready.

[View Career Path →](#)

🎓 What You'll Learn

Covered over 10 hours (2-5 days).

- 1 Describe cloud concepts — high availability, scalability, elasticity, and the shared responsibility model
- 2 Describe core Azure architectural components — regions, availability zones, resource groups and ARM
- 3 Describe Azure compute and networking services
- 4 Describe Azure storage services
- 5 Describe Azure identity, access, and security; cost management and governance

💰 Pricing

COURSE PRICE

R10,900

Full payment before commencement (no payment plan)

📖 Course Duration & Format

 Duration

10 hours (2-5 days) — maximum completion time

 Payment

Full payment before commencement (no payment plan)

 Mode

1-on-1 online (MS Teams / Google Meet) with a real lecturer

 Start Dates

Flexible — start anytime

👜 Career Prospects

- ◆ Cloud Support Technician
- ◆ Junior Cloud Administrator
- ◆ IT Support (Azure-aware)
- ◆ Business Analyst (Cloud)
- ◆ Technology Consultant (entry)

Typical Azure Fundamentals salary (South Africa)

R180k – R350k / yr

International exam(s): optional — Microsoft exam (AZ-900, Azure Fundamentals). Contact us to confirm current fee.

 Get job-ready skills — start your Azure Fundamentals today.

FUNDAMENTALS

Azure Data Fundamentals Course

Foundational data concepts on Azure — relational and non-relational data, and modern analytics workloads. The starting point for every Azure data and analytics career path.

● Flexible hours

● Commence anytime

● 1-on-1 online with a real lecturer

🔗 This course is part of the **Data Engineer / Analyst** career path — a structured, bundled route to job-ready.

[View Career Path →](#)

🎓 What You'll Learn

Covered over 10 hours (2-5 days).

- 1 Describe core data concepts — structured, semi-structured and unstructured data
- 2 Identify considerations for relational data on Azure
- 3 Describe considerations for working with non-relational data on Azure
- 4 Describe an analytics workload on Azure
- 5 Understand where Azure SQL, Cosmos DB, Fabric and Synapse each fit

💰 Pricing

COURSE PRICE

FUNDAMENTALS

Azure Security, Compliance and Identity Fundamentals Course

Foundational security, compliance and identity concepts across Microsoft's cloud services — the entry point into every Azure security career path.

● Flexible hours

● Commence anytime

● 1-on-1 online with a real lecturer

🔗 This course is part of the **Security Engineer** career path — a structured, bundled route to job-ready.

[View Career Path →](#)

🎓 What You'll Learn

Covered over 10 hours (2-5 days).

- 1 Describe the concepts of security, compliance, and identity
- 2 Describe the capabilities of Microsoft identity and access management solutions
- 3 Describe the capabilities of Microsoft security solutions
- 4 Describe the capabilities of Microsoft compliance solutions
- 5 Understand the Zero Trust model as applied across Microsoft 365 and Azure

AI SQL Developer Course

Design and develop AI-enabled database solutions across SQL Server, Azure SQL, and SQL databases in Microsoft Fabric — advanced T-SQL, vector and semantic search, and integrating LLMs into SQL applications.

● Flexible hours

● Commence anytime

● 1-on-1 online with a real lecturer

🔗 This course is part of the **AI SQL Developer** career path — a structured, bundled route to job-ready.

[View Career Path →](#)

Prerequisite: Azure Data Fundamentals (DP-900) and Azure AI Fundamentals (AI-901) — both available as standalone courses.

🎓 What You'll Learn

Covered over 40 hours (2 months). Capstone course of the AI SQL Developer pathway.

- 1 **Advanced T-SQL and CI/CD practices for AI-enabled database solutions**
- 2 **Vector and semantic search inside SQL Server, Azure SQL, and Microsoft Fabric SQL databases**
- 3 **Building RAG (Retrieval-Augmented Generation) workflows to ground LLM outputs in your own data**
- 4 **Integrating LLMs into SQL applications without migrating your data**
- 5 **Exposing SQL data through Data API builder for AI-powered applications**

💰 Pricing

COURSE PRICE

R28,800

Payment plan: 2 payments of R14,400 per 20 hours

Certification Pathway Options

Three structured routes through the Azure and Fabric portfolio — start with the matching Fundamentals course, then progress toward Associate and Expert level.

● Flexible hours

● Commence anytime

● 1-on-1 online with a real lecturer

Cloud Administrator path

Azure Fundamentals (AZ-900) → Azure Administrator Associate (AZ-104) / Windows Server Hybrid Administrator Associate (AZ-802) → Azure Network Engineer Associate (AZ-700) → Azure Virtual Desktop Specialty (AZ-140) / Azure for SAP Workloads Specialty (AZ-120) → Azure Solutions Architect Expert (AZ-305) / Azure DevOps Engineer Expert (AZ-400)

Data Engineer / Analyst path

Azure Data Fundamentals (DP-900) → Azure Database Administrator Associate (DP-300) / Azure Cosmos DB Developer Specialty (DP-420) → Fabric Data Engineer Associate (DP-700) / Azure Databricks Data Engineer Associate (DP-750) / Fabric Analytics Engineer Associate (DP-600) → Power BI Data Analyst Associate (PL-300)

Security Engineer path

Azure Security, Compliance and Identity Fundamentals (SC-900) → Security Operations Analyst Associate (SC-200) / Cloud and AI Security Engineer Associate (SC-500) → Identity and Access Administrator Associate (SC-300) / Information Protection and Compliance Administrator Associate (SC-400) → Cybersecurity Architect Expert (SC-100)

Deeper AI-specific certifications — Azure AI Fundamentals, Azure AI App and Agent Developer Associate, MLOps Engineer Associate, and Azure AI Cloud Developer Associate — are covered in our separate **AI & Machine Learning Courses** brochure.
