Web Engineering

Master Course

**School of IT International (Pty) Ltd**

Somerset West, Cape Town, South Africa · [schoolofit.co.za](http://schoolofit.co.za)

# Intro to Web Design

Web design is a fundamental knowledge base to have — over 60 million people engage with websites every day. Learn how to make sites mobile and stay up to date with trends. 1-on-1 online training with a real lecturer.

● Flexible hours

● Commence anytime

● 1-on-1 online with a real lecturer

## What You'll Learn

Covered over 20 hours (~1 month).

- 1 Intro to graphic design — image types, resources and wireframes
- 2 Learn HTML5 for the content of web pages and responsive design
- 3 Learn CSS3 — styling a web page (inline, internal, external)
- 4 Learn JavaScript — logic of your contact forms and pages; create your first web page using HTML5, CSS and JavaScript
- 5 Hosting and SEO — FTP, hosting packages, and basic SEO concepts; project and test

## Pricing

COURSE PRICE

**R13,900**

Full payment before commencement (no payment plan)

## Course Duration & Format

### Duration

20 hours (~1 month) — maximum completion time

### Payment

Full payment only (no payment plan)

### Mode

1-on-1 online (MS Teams / Google Meet) with a real lecturer

### Start Dates

Flexible — start anytime

## Career Prospects

- ◆ Junior Web Designer
- ◆ Web Developer (entry)
- ◆ Front-End Developer (entry)
- ◆ Freelance Web Designer
- ◆ Digital Content Creator

Typical Web Design salary (South Africa)

**R150k – R350k / yr**

**International exam(s):** up to 2 exams optional – contact us to confirm current per-exam fee. School of IT handles booking & admin for each.

 Get job-ready skills – start your Intro to Web Design course today.

# Advanced Web Development

Web development is the work involved in developing a website for the internet or an intranet — ranging from a simple static page to complex web-based internet applications. 1-on-1 online training with a real lecturer.

● Flexible hours

● Commence anytime

● 1-on-1 online with a real lecturer

**Prerequisite:** Intro to Web Design (billed separately — total with prerequisite R29,800).

## What You'll Learn

Covered over 20 hours (~1 month).

- 1 **Advanced HTML5, CSS3 and developer tools; SASS — advanced styling**
- 2 **Looking at animations, transitions and extensions**
- 3 **Advanced JavaScript/jQuery/Ajax; PHP — syntax and structure**
- 4 **GitHub — exploring frameworks; web services (XML) — create your own web services; Node.js — syntax and structure**
- 5 **Digital marketing — social media and SEO**

## Pricing

COURSE PRICE

**R15,900**

Full payment before commencement (no payment plan)

## Course Duration & Format

**Duration**

20 hours (~1 month) — maximum completion time

**Payment**

Full payment only (no payment plan)

# Intro to Angular

Angular is a TypeScript-based open-source web application framework led by the Angular Team at Google and a community of individuals and corporations. 1-on-1 online training with a real lecturer.

● Flexible hours

● Commence anytime

● 1-on-1 online with a real lecturer

🔥 This course is part of the **Full Stack Developer** Career Path — a structured, bundled route to job-ready.

[View Career Path →](#)

## 🎓 What You'll Learn

Covered over 20 hours (~1 month).

- 1 JavaScript syntax; TypeScript classes syntax
- 2 Angular form processing — two-way data binding
- 3 Angular JS, and GitHub — exploring frameworks
- 4 Angular services — defining and injecting services; calling an API via HTTP
- 5 Angular routing and navigation; Angular pipes — overview of pipes

## 💰 Pricing

# Reactive Programming with Angular RxJS

Build on your Angular foundation with RxJS — the reactive extensions library for JavaScript used throughout Angular for handling asynchronous data streams. 1-on-1 online training with a real lecturer.

● Flexible hours

● Commence anytime

● 1-on-1 online with a real lecturer

🔥 This course is part of the **Full Stack Developer** Career Path — a structured, bundled route to job-ready.

[View Career Path →](#)

**Prerequisite:** Intro to Angular (sold separately).

## 🎓 What You'll Learn

Covered over 10 hours (~2 weeks).

- 1 Understanding Observables and reactive streams
- 2 Core RxJS operators — map, filter, merge, switchMap and more
- 3 Working with Subjects and multicasting
- 4 Handling asynchronous data flows in Angular applications
- 5 Error handling and retry strategies in reactive streams

## 💰 Pricing

COURSE PRICE

**R13,900**

# ReactJS

React is a free and open-source front-end JavaScript library for building user interfaces based on components – maintained by Meta and a community of individual developers and companies. 1-on-1 online training with a real lecturer.

● Flexible hours

● Commence anytime

● 1-on-1 online with a real lecturer

🔗 This course is part of the **Full Stack Developer** Career Path – a structured, bundled route to job-ready.

[View Career Path →](#)

**Prerequisite:** Intro to JavaScript (billed separately – total with prerequisite R32,800).

## 🎓 What You'll Learn

Covered over 20 hours (~1 month).

- 1 Understand how a Single Page React application differs from traditional web development frameworks; code using new ES6 language features
- 2 Develop an application from scratch using React 16; understand the benefits of unidirectional data flow
- 3 Understand and use React, React Router, Redux and Redux Saga; create Redux middleware with Redux Saga
- 4 Use styled-components for presentational components (CSS in JS); unit test React components with Jest, Enzyme and Sinon
- 5 Implement server-side rendering for SEO; understand Webpack bundler features (code splitting, lazy loading, tree shaking); build and deploy React applications to the cloud
